

A talent for design—A sense for people

Jr. Mechanical Engineering

Full Time
Engineering
Rochester, NY, US

Salary Range: \$61,000 to 68,000 Annually

Turner Engineering, P.C. has an opening for an Entry Level Mechanical Engineer in Rochester, NY.

Turner Engineering, P.C. is a full-service engineering firm. We provide mechanical, electrical, plumbing, energy modeling and commissioning services for healthcare, institutional, education, commercial and industrial buildings. This is an excellent career growth opportunity for a detail-oriented engineer seeking challenging projects.

Mechanical – Engineering

Job Responsibilities

Responsible for creating detailed drawings, developing major layouts, selecting components, creating design, and performing calculations under engineering supervision.

Other responsibilities of the Mechanical Engineer role include:

- Working with 3D Modeling Software; Revit MEP, preferred
- Applying knowledge of industry accepted drawing standards
- Checking your own work and producing high quality output
- Working closely with the mechanical engineering staff, project managers, and other discipline engineers, and designers
- Interacting with clients
- Creating and maintaining plumbing / fire protection CAD / modeling standards

Job Requirements

In the Mechanical Engineer role, you must possess strong organizational and time management skills. We are seeking a strong leader with superb communication abilities. You must be a self-motivated team player who is able to stay organized, multitask, and pay close attention to detail.

Other requirements of the Mechanical Engineer role include:

- Bachelor's degree in a mechanical engineering-related field or equivalent experience
- Experience in the design of mechanical systems for healthcare, commercial, and industrial buildings, a plus
- CPD/ LEED AP experience, *preferred*
- AutoCAD or MicroStation 3D CAD software experience
- Revit / 3D Modeling experience, *a plus*
- MS Windows / Office applications experience
- Experience working with peripheral disciplines (Electrical)
- Ability to work well with a team and independently
- Must have good analytical skills
- Ability to work overtime when required
